

Background Cell

The diagram illustrates a hierarchical mesh structure. A large, irregular polygon, outlined with a solid black line, represents the 'Background Cell'. This cell is situated on a background grid of dashed lines. Within the lower portion of the background cell, a smaller, triangular region is also outlined with a solid black line, representing the 'Computational Cell'. A label 'Background Cell' is enclosed in a dashed rectangular box in the upper left, and a label 'Computational Cell' is enclosed in a solid rectangular box within the triangular region.

Computational Cell
